

# Introducing **Easy Boss E**

*An oral distraction device  
that makes the common  
procedure easier, faster,  
without a halter.*

**EASY BOSS E**™  
ORAL DISTRACTION DEVICE

This patent  
pending design  
was developed by Dr Don  
Findlay, a cow vet from Manitoba.

Easy Boss E is inserted into the mouth,  
sliding down to the corner of the lip. The device  
stimulates a chewing reflex in cattle, calming them.

*A docile animal in the head gate means procedures are less stressful:*

- Ear tagging
- Wound management
- Removing Quills
- Drenching
- Dehorning
- Bull Evaluations
