

Havoc[®] Canada

Havoc Rodenticides

For the control of Norway rats (*Rattus norvegicus*), roof rats (*Rattus rattus*) and House mice (*Mus musculus*) in farm buildings, food processing, food manufacturing, food storage and food service areas.

Active Ingredient: Brodifacoum

Strongest anticoagulant rodenticide available*

Commercial – Only to be used by certified pest control operators, farmers and persons authorized in government-approved pest control programs.

- 2nd generation anticoagulant
- Single-feed rodenticide
- Death may occur within 4-5 days after a lethal dose is consumed
- Controls Norway rats, roof rats and house mice; rodents may consume a lethal dose in a single night's feeding
- Palatable formulation - combines active with a special mixture of highly attractive bait ingredients along with patented food processing techniques.
- Configurations include blocks and pellets

*Based on comparable LD₅₀ values of currently registered rodenticide active ingredients

Havoc-XT Blok

- Kills Rats and Mice
- For indoor use only

Havoc XT bloks are weather resistant and very low profile. Their unique shape makes it easy for rats and mice to gnaw on. The bloks contain Bitrex, a child and non-target deterrent.

Havoc-XT Blok 40x20g Pail

Havoc-XT Blok 10lb Pail

Havoc Rodenticide Bait Packs (Pellets)

- Kills Rats and Mice
- For indoor use only

Place packs allow rodents to eat through the packaging without need to open pouch or touch bait.

Havoc 80x2x50g Pail
