

DeciMax®

Bromadiolone is a second generation anticoagulant highly effective in the control of rats and mice. DeciMax® is available in a full product offering using high quality food grade ingredients including blocks with ridges to promote gnawing, and weatherable soft bait made without the use of wax for a high performance in cold or hot weather conditions.

DeciMax Blocks:

- Single feed, second generation anticoagulant, Bromadiolone, provides excellent control in less time after lethal dose is consumed
- Palatable formula with grains
- Available in 28 g (1 oz) blocks
- For indoor and outdoor control of Norway and roof rats and house mice
- All Weather formulation reduces the risk of ruined bait, while food grade ingredients provide an irresistible formulation for effective control in most environments

DeciMax Soft Bait:

- Palatable soft bait manufactured with the highest quality food grade ingredients
- Soft baits are made without wax which allows for more active per placement and higher acceptance
- Wax-free formula also resists melting in hot weather conditions
- Second generation active Bromadiolone is effective in control of both rats and mice
- Sachets are packaged inside plastic bags inside pail to maintain freshness
