

PREMISE DEGREASER

CHLORINATED DEGREASER

PREMISE DEGREASER is an industrial strength, highly concentrated, foaming cleaner with added chlorine. It penetrates and lifts a wide variety of soils including oils, fats, grease and proteins.

FEATURES

- Contains chlorine in the form of sodium hypochlorite
- Moderate alkalinity
- High foaming
- Low viscosity
- Solvent free
- Safe on soft metals and concrete

BENEFITS

- High performance product
- **PREMISE DEGREASER** may be used in compressed air or manual foaming systems
- The foam clings well to surfaces over a long period of time
- Cost efficient
- User friendly

DIRECTIONS FOR USE

MANUAL APPLICATION

By mop, brush or sponge: Dilute at a rate of 1 to 5% in hot water. Apply to surface and let stand 5 minutes, rinse with potable water.

FOAM APPLICATION

Use in an industrial foamer. For most cleaning operations, the proportioning device in the foamer should be set to dilute the concentrate approximately 1 to 5%. Let foam remain on surface approximately 5 minutes. Rinse with water and drain completely after use.

PREMISE DEGREASER

CHLORINATED DEGREASER

PHYSICAL PROPERTIES

Appearance:	clear light green liquid	Auto Ignition Temperature:	none
Odour:	chlorine	Chlorine:	hypochlorite
Specific Gravity @ 20°C :	1.16	Boiling Point:	100°C
Viscosity:	thin	Freezing Point:	not available
pH:	12	Foaming Tendency:	high
Flash Point (TCC):	none	Concentration Monitoring Techniques:	titration, conductivity
Phosphorus:	yes	Rinsability:	excellent
Water solubility:	complete		

INCOMPATIBILITY

Acids

WAREHOUSING PRECAUTIONS

Avoid freezing, store away from acids
