

# SyrVet™ Detectable needles

## Sizes & Lengths

TA4300	20G x 1/2"
TA4303	18G x 1/2"
TA4304	18G x 5/8"
TA4305	18G x 3/4"
TA4306	18G x 1"
TA4307	18G x 1 1/2"
TA4310	16G x 3/4"
TA4311	16G x 1"
TA4312	16G x 1 1/2"

## Description & Advantages

- For large animal applications requiring a sturdy needle
- 100% detectable according to a study of Dr. Hoff from "Iowa State University"
- Stainless steel canula with aluminum hub
- Tri-beveled, anti-coring tips are computer ground for consistence sharpness
- Sterile, nonpyrogenic, autoclavable components
- Anti-friction coating eases injection & withdrawal for minimal penetration resistance & animal discomfort
- Tamper evident cartridges are safe, convenient, easily disposed
- All boxes are UPC coded, display lot number, expiration date, product description and reorder number
- Cartridges are color-coded to follow industry standards, providing easy gauge identification
- Usage instructions are printed in English, Spanish, French, German, Italian and Portuguese
