

## ANIMAL MARKING SPRAY

**Description:**

RAIDEX animal marking spray is a fast-drying and colour-intensive marking dye. The spray can contains harmless ethanol as a solvent and environmentally-friendly propane/butane as a propellant.

**Application:**

RAIDEX animal marking spray is suitable for marking cattle and pigs. We also offer a special formula as a spray for sheep marking. By "writing" at a distance of approx. 20 cm – marking should be applied to the animal's back if possible – the dye will not smudging while drying. The marking is visible on pigs for an average of 2 weeks, on cattle somewhat longer

**Delivery form:**

Spray cans containing 200 ml, 400 ml and 500 ml, 12 cans per box.

**Colours:**

red, blue, green, orange, violet, black, opaque yellow

**Safety notices:**

When using RAIDEX animal marking spray, please refer to the safety notices that appear on the label on the spray can. Our products must only be used as intended.
