

HBB: 20B / #1082209

25mm UltraSharp Snap-Off Replacement Blade

40% thicker and 25% sharper, the OLFA HBB is the ultimate choice in cutting performance

Applications:

Ideal for when superior initial sharpness is required to cut through the toughest and most difficult materials found in construction and industrial work

Measurements:

A – 5.51" (140mm), **B** – 4.97" (126mm),

Blade Segment – 5/16" (14mm)

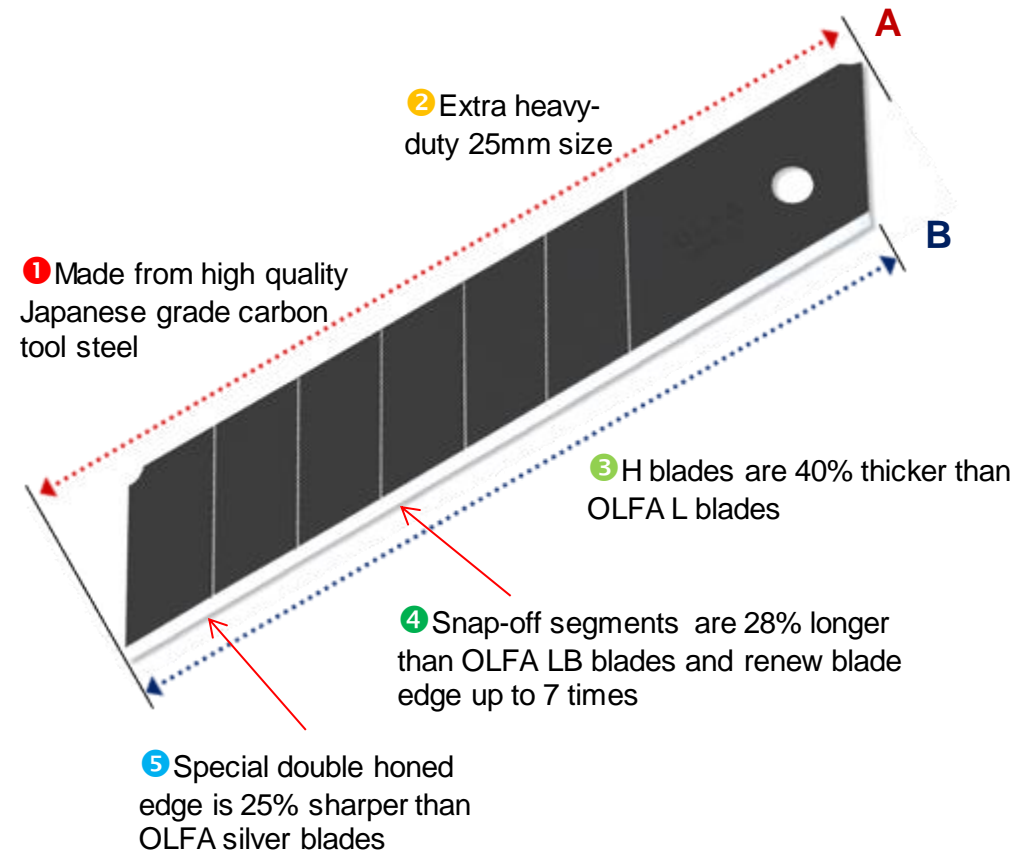

User benefits:

- 1 Premium quality materials for exceptional performance
- 2 Fits all OLFA extra heavy-duty H - 25mm utility knives
- 2 25mm size cuts the toughest materials with ease
- 3 4 Thicker, longer segments resist snapping while cutting
- 4 Save time and money with 7 renewable blade edges
- 5 UltraSharp, 25% more initial sharpness than HB

Why sell it:

- Trade up existing customers to 25mm segment
- Captures new customers in extra heavy-duty segment
- Visual appeal of the blade attracts customers

Blade System	Blade type / # of edges	Blade Materials
"H" - 25mm (Black)	Segmented / 7 Edges	Carbon Tool Steel
